CEO Message

The most important asset of Seagull is our dedication to safety and quality in an industry characterized by assuming unnecessary risks when timely completion is a challenge and sacrificing quality for profit. Over the last few years, we have built a reputation with Government and Private Clients for high standards which can be jeopardized by the actions of any of us. Despite the pressures of tough and competitive markets and the instability in the regional and global economies, we need to emphasize our commitment and adherence to maintain this reputation.

Seagull General Trading and Contracting CO. has evolved to be a major player in Oil & Gas construction, maintenance and fabrication with emphasis on pipelines, tanks to be a significant contributor to our business, with local and regional loyal customers. Each employee is personally responsible for continuing this momentum and the drive for achievement without losing sight of our values and our high standards, the pillars of our reputation. Success is never easy, but always rewarding. Hand in hand, we persevere and reach our goals however high we set them.

Haitham Salah
Seagull CEO

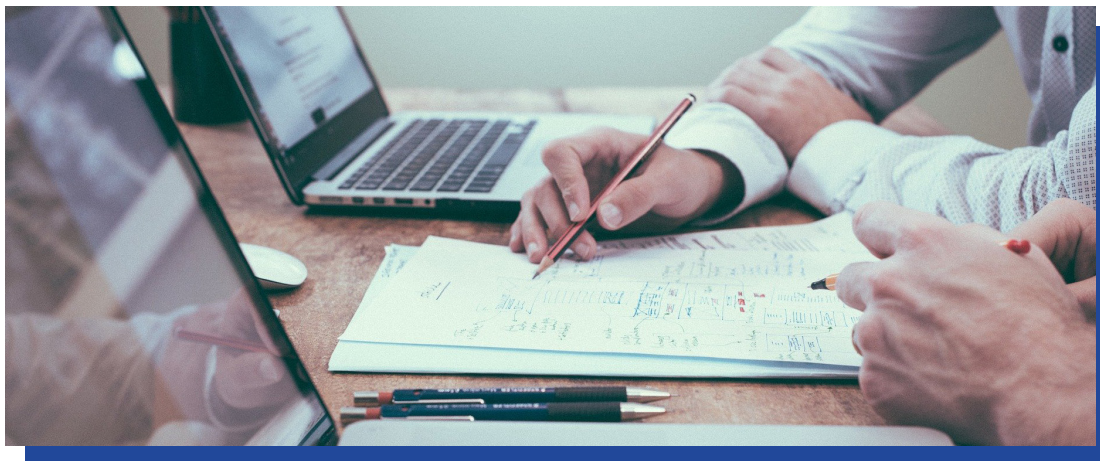

About Seagull

Seagull General Trading and Contracting CO. is a subsidiary of Seagull General contracting for buildings located in Kuwait, Seagull KW is a major Engineering, Procurement and Construction (EPC) Contracting company based in Kuwait with a diversified range of business in Oil and Gas, Petrochemicals, Power, Major Civil Construction, Maintenance and other industrial services including Heavy Industry projects.

Seagull's commitment to its clients is proven by its quality management system certification to ISO 9001: 2015 and Occupational Health & Safety Management System certification to ISO 45001: 2018 standards.

Established in 2010 to recognize as one of the leading industrial companies in Kuwait, having made a major contribution to the development of the country's commercial and industrial infrastructure through successfully completed projects in virtually every economic sector. Just as our diversification continued to grow, so did our reputation for standards of excellence in quality, performance and customer service.

SEAGULL's highly experienced & dedicated engineers undertake all engineering activities from concept to commissioning related to the following operations with a very high level of professionalism.

Our Fields

Vision

Seagull will become the customer's first preference Company for Fabrication, Construction, Industrial Maintenance and trading in Egypt.

Mission

We are determined to provide complete service to our customers in the Fabrication, Construction, Industrial Maintenance. We are committed to achieve sustained growth rate by meeting the schedule and quality requirements of our customers. We will provide our value added services at competitive prices by evolving efficient cost. Control measures and regular upgrading of our resources.

Seagull's wide-ranging fields of activities and capabilities are operated through:

- Mechanical Operations
- Civil Operations
- Tank Operations

OIL & GAS

Seagull is a leading construction contractor in oil & gas, petrochemicals and power sectors in Kuwait. It provides a complete range of construction services for all major projects in the industry, particularly as the market leader in the construction of storage tanks and pipelines.

The field of activities under Oil & Gas Operations:

- Oil & Gas Construction Operations
- Industrial Maintenance Operations
- Fabrication Services Operations
- Trading Operations

CIVIL OPERATIONS

Civil construction is crucial to a project's success. Seagull offers years of extensive experience in the civil construction and development. With dedicated technologies and equipment, our professional civil construction team deals with design, construction and maintenance of industrial civil construction and infrastructure. The civil work ranges from excavation, backfilling and trenching to road and asphalt works, construction of all types of buildings for control rooms, sub-stations, process and utility stations, construction of various kinds of foundations for static and rotary equipment, pipe rack and pipe supports and fabrication and installation of equipment platforms.

MECHANICAL OPERATIONS

Mechanical Operations consists of the following construction activities:

- Flowlines
- Pipelines
- Plants
- Tank

TANK OPERATIONS

With decades of experience in manufacturing and successful installations of storage tanks, Seagull is capable of manufacturing tanks of even complex plate structures. Today, Seagull is one of the Kuwaiti company to possess KOC approval for EPC of storage tanks up to the capacity of 500,000 bbl. It has completed in-house facilities for full turnkey projects from design, detailed engineering, procurement and fabrication of tank plates to site erection, installation of interconnecting pipe-works, electrical connections, instrumentation, painting, lining and coating. The international standard codes followed are API 650, API 620 or equivalent standards complete with all required associated standards such as AWS A.I and ASME IX, surface preparation to Swedish Sa or SPCC specifications with painting coating or lining.

Health, Safety and Environment

HSE is the core value of Seagull. Seagull established an effective HSE management system and its policies are developed on the point that HSE is everyone's responsibility and it should be inculcated as a culture in all levels of employees. Seagull is certified to ISO 45001: 2018 for its occupational health and safety management system.

Our activities strictly comply with local HSE rules and regulations. We are committed to the health and safety of people and environment where we operate. Our current incident rates are indicative of our excellence in HSE performance and stand higher when compared to international standards.

Seagull has a pool of qualified and experienced HSE personnel and possesses required safety equipment and gears for the safe execution of projects.

Our Projects

Seagull had accomplished many large scale projects in wide-ranging fields and some of these projects are :

Mechanical

- Piping
- GRP Piping
- Insulation & Cladding
- Tank
- Steel Structure

Civil

- Fence
- Underground Pits
- Labor Camp
- Underground Trench
- Warehouse

Mechanical Work

Piping

Project

Installation for compressed air & water supply pipelines for cement plant.

Scope of Work

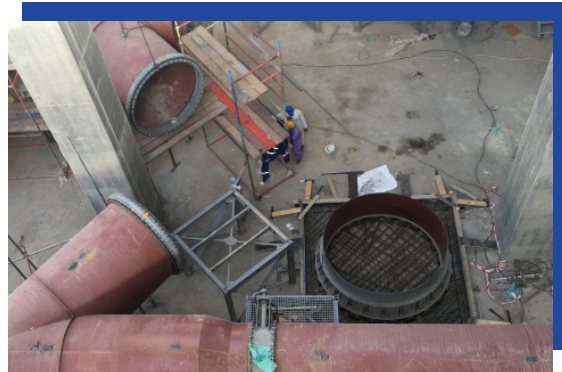

Supply, fabrication and erection for pipelines.

Owner

Gulf Nation for Construction Material Co. (GNCM Co.)

Consultant

FLSMIDTH

GRP Piping

Project:

Installation for underground GRE fresh water pipeline at MAA & MAB refineries.

Scope of Work :

Installation only for GRE pipeline, hydrotest and commissioning.

Owner

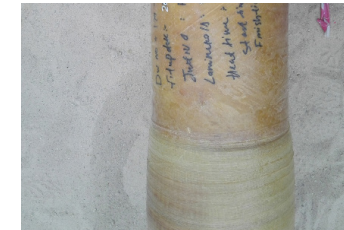

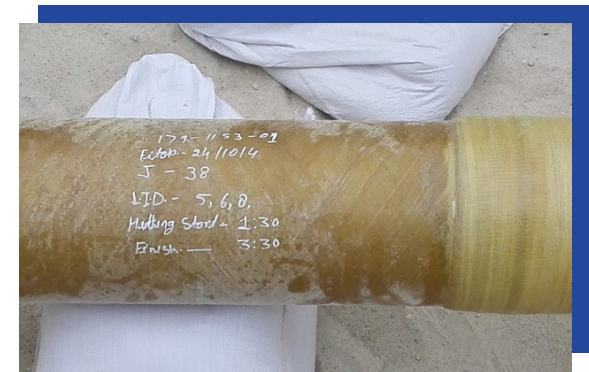

Kuwait National Petroleum Co. (KNPC)

Main Contractor

Samsung C&T

Consultant

Amec Foster Wheeler

Pipelines

Project

Installation of Low Sulphur Fuel Oil, Fuel Gas and Gas Oil Pipeline from Mina Al-Amadi to Sabiya and Doha Power station. 220 Km

Scope of Work

installation for 3.8 KM from KP-05 to KP-08, stringing, welding and tie-in

Owner

Kuwait Oil Company

Main Contractor

HYUNDAI engineering & construction Co., LTD.

Sub Contractor

Heavy engineering industry and shipbuilding co.

Insulation & cladding

Project

Insulation and aluminum cladding for cement silos, piping and equipment.

Scope of Work

Supply, fabrication and installation for insulation and aluminum sheets.

Owner

Gulf Nation for Construction Material Co. (GNCM Co.)

Consultant

FLSMIDTH

Tank

Project

Installation for gas oil tank at Az-Zour south power station.

Scope of Work

Fabrication and erection for tank and piping

Owner

Ministry of Electricity and Water (MEW)

Main Contractor

Heavy Engineering Industry and Ship building Co (Heisco)

Steel Structure

Project

Installation for steel structure for cement plant.

Scope of Work

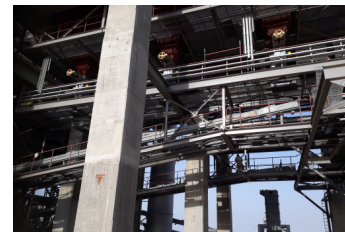

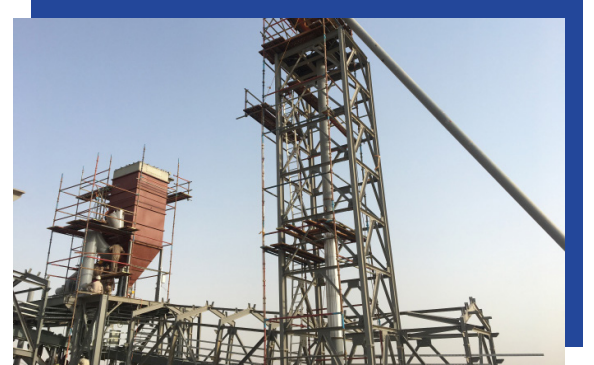

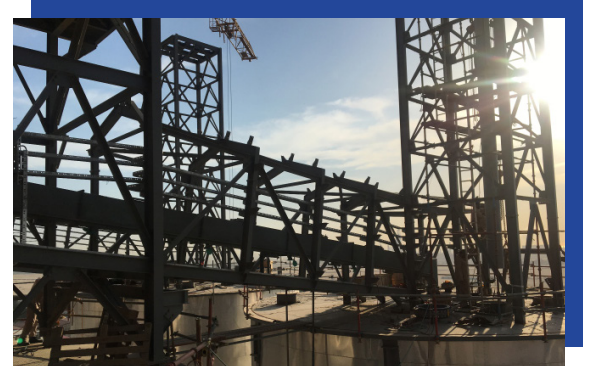

Erection only for steel structure

Owner

Gulf Nation for Construction Material Co. (GNCM Co.)

Consultant

FLSMIDTH

Civil Work

Fence

Project

Construction of boundary fence for Az-zour south power plant 12 km.

Scope of Work

Elimination for existing fence, concrete work (plan, foundation) and install of precast walls.

Owner

Ministry of Electricity and Water (MEW)

Consultant

kccec

Underground Pits

Project

Construction of underground concrete valves pits for 56 No.

Scope of Work

formwork, steel fixing, embedded items and concrete pouring.

Owner

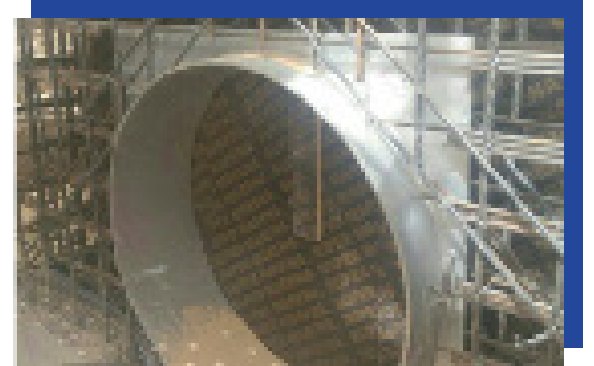

Kuwait oil company KOC

Consultant

pertofac

Main contractor

Larsen & Tourbo Co.

Labour Camp

Project

Construction of Sinopec Co. labor camp at Abdali north Kuwait

Owner

Sinopec Co.

Consultant

Petrofac

Scope of Work

Civil and Mechanical

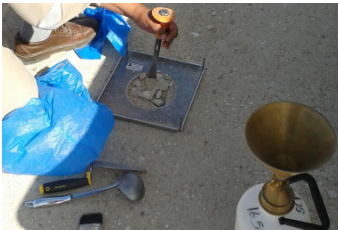

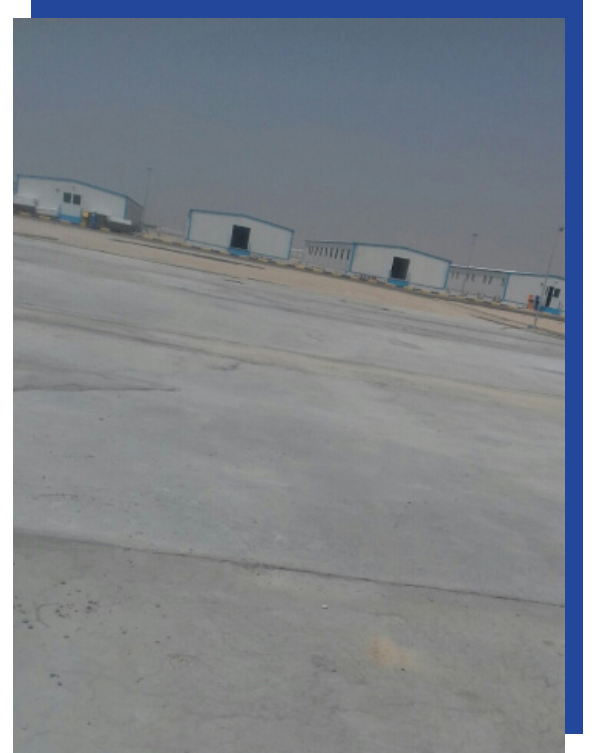

Civil Work

- Cut and fill and laying gatch and compaction.
- Foundation for water tanks generators and pumps, playing area, blocks for portacabins, septic tanks.
- Interlock and kerbstone.

Mechanical Work (supply and insallation)

- Plumping work and connection with septic tank.
- Fire fighting installation inside portacabins and all buildings.

Underground Trench

Concrete Work

Project

Construction for underground trench 2.4 km at Abdali north Kuwait.

Scope of Work

Concrete work forwork, rebar fabrication and concrete pouring.

Owner

Kuwait Oil Company

Consultant

Pertofac

Main contractor

Larsen &Tourbo Co.

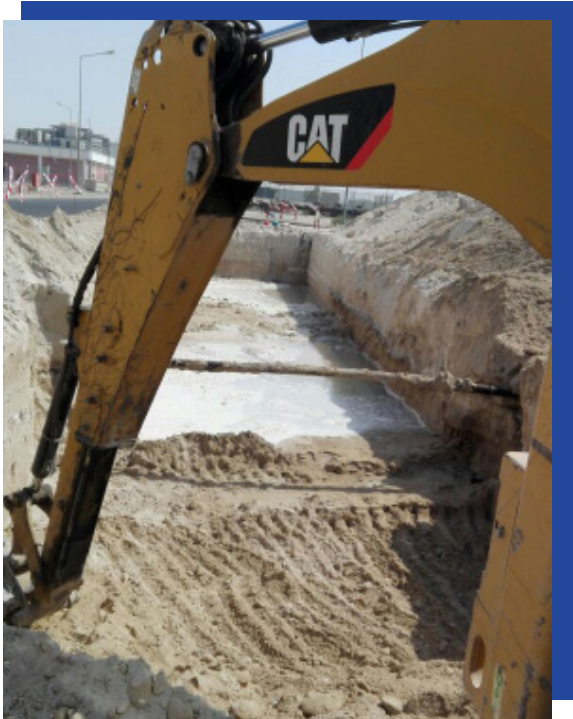

Excavation

Project

Excavation for underground trench 2.4 km and piping 35 km at Abdali north Kuwait.

Scope of Work

Excavation, sand bedding and compaction for underground concrete trench and underground piping network.

Warehouse

Project

Construction of warehouses at new refinery project (NRP).

Scope of Work

Supply, concrete work, steel structure and sandwich panel

Owner

KNPC

Consultant

Worleyparsons

Main Contractor

Flour Co.

Trading

SEAGULL's dynamic sales and marketing forces are charged with responsibilities for promoting the sales of materials, products and equipment to commercial, oil & gas and power utility sectors on behalf of a portfolio of leading international manufacturers and suppliers.

SEAGULL offers its customers an unrivalled service of experience, technical competence and reputation backed by after sales service from the formidable engineering & maintenance resources of our combined operations. Our Trading Operations promotes a variety of industrial products and also the interests of large international EPC contractors in Kuwait and Egypt, both by way of sponsorships and value-added partnership

Certificates

One of **Seagull's** main values is to be always a trustworthy company and be capable of providing reliability through projects, clear work cycle and certificates. Seagull had managed to get a number of worldwide known certificates within its active years in Kuwait over the past 10 years, these certificates can tell a lot about Seagull and its achievements.
